

I am excited to share information with you about an amazing program that is offered for residents and business owners in Davis County.

The Citizens Police Academy brings law enforcement and the public together in an informal, educational forum to develop a relationship of understanding and trust, making Davis County a better and safer place to live and work.

Experienced police officers and instructors present briefings, demonstrations, discussions and hands-on experiences to teach class participants about the how, why and what of first responder operations in our community.

The in-depth, comprehensive course can be a considerable time commitment: 3 hours, one evening a week, for 15 weeks, but most of our participants enjoy it so much, they say they look forward to it every week and are sad to see it come to an end.

The program also creates a camaraderie, not only between citizens and police, but with the class members as well, which creates friendships and makes an easy and inexpensive date-night or company team building opportunity!

We would be pleased to have anyone from your company join us for the next session that begins in August. Please see the attached flyer for more info on how to register.

Thank you for your service to our community!
Best regards,

Susan Barnes
