

SOUTH DAVIS METRO FIRE AGENCY

PEER REVIEW FOR FIRE PROTECTION SYSTEMS

In accordance with Section 104.7.2 of the International Fire Code, Farmington will require a "technical opinion and report" (peer review) of all plans for the installation and/or modification of an automatic fire protection system, installation and/or modification of fire alarm and detection systems and related equipment, fire pumps and related fuel tanks, jockey pumps, controllers and related equipment, installation, modification, or removal from service of a standpipe system.

Exceptions to required peer reviews:

- 1- Installation of fire hydrants and underground fire protection supply lines.
- 2- Pre-engineered kitchen hood suppression systems.
- 3- Installation or relocation of less than 10 sprinkler heads.
- 4- Installation or relocation of less than 10 alarm/notification appliances.

The following individuals/companies have been approved by the Farmington Fire Department as design professionals from whom third party plan reviews will be accepted. In addition to these individuals, any individual meeting one of the following requirements will be considered as an acceptable third party plans examiner. Credentials must be submitted and reviewed by the Farmington Fire Fire Marshal prior to approval.

Third Party Plans Examiner Qualification Requirements:

1. Licensed Professional Engineer (PE)
2. Licensed Fire Protection Engineer (FPE)
3. Bachelor's Degree or Higher in Fire Protection Engineering
4. NICET Level III Certification in the Specific Field of Review
