

## Brett Nathan Anderson

Serving as Mayor of Farmington has been a tremendous honor, and I'm proud of the progress we've made together. Through this past term, we've strengthened our city—we invested in critical water infrastructure, hired additional police officers and firefighters to keep our families safe, and secured over \$22 million in state and county funding for street improvements.

We've also taken important steps to protect and plan for Farmington's future. We revised our General Plan to reflect our shared vision, purchased the historic Old Mill, and are currently building an awesome new park for families to enjoy. I'm committed to preserve our unique heritage and prepare for smart,

sustainable growth. Oh, and we're rolling out green waste recycling.

If re-elected, I will continue to build a foundation for long-term economic stability through robust sales and property tax strategies. I will strive to listen to, and amplify the community's voice. And, while we're at it, I'll keep working on improving our pool and creating new recreational opportunities (e.g., skate and/or pump track).

Farmington is more than a city—it's our home. With your support, I'll continue working hard to keep it safe, vibrant, windstorm-free, and uniquely ours. Thank you.
